Summertime Fjellerup

The week after, I had the privilege of being a teen leader at another camp. One morning, I taught the teens about the Bible and why it is so important to stay in the Word and maintain a relationship with God. I enjoyed spending time with them and also gained some excitement for COS, which is just two months away! Our worship team included some of my friends from Australia who were on the YWAM base where I did my SBS. It was great to spend time with a few people I know from there and hear how everyone is doing.

Work and getting ready for Staffing

I am personally ready to leave scaffolding behind, as my passion is teaching the Word and equipping young adults for missions and the world. It has been fun, but it's a lot of hard work. I can now also say I'm almost at the required monthly support needed. If you are interested in helping me reach that goal, please contact me. And remember, no amount is too small!
